

American Marxism by Mark R. Levin, July 2021 (29 pages of foot notes)

Chapter 1. It's Here: "The Counter Revolution to The American Revolution". We are all immersed in it, America Marxism which threatens to destroy our freedom, families and our security. Marxist cloak themselves as Progressives, Democratic Socialist and Community Activist. American Marxism uses the allure of Utopianism to attract followers.

Chapter 2. **Breeding Mobs:** Mass movements are formed by using propaganda that divides people into groups based on race, age, income, rich and poor, etc. Black Lives Matter was formed by two people that bragged of being Marxist trained. 70 years ago, Eric Hoffer, (no relation), wrote an iconic book, "The True Believer", where he explained, Mass Movements attracts followers not because it satisfies desire for self-advancement but because it can satisfy the passion for self-renunciation. Most Mass Movements are angry and hostile toward successful individuals.

Chapter 3. Hate America: NY Times; Oct 1989 article: "Mainstreaming of Marxism in U. S. Colleges", stated, the agenda for Marxists was how the Education System could further Socialism. A 2006 survey of 927 Education Institutions concluded college professors were 9% conservative, 80% solidly left and 1 in 5 Social Science identified as Marxist. The faculty intent was to indoctrinate an army of anti-American youth who will do the bidding of the faculty as they emerge into the workplace.

Chapter 3. Racism, Genderism and Marxism: Critical Race Theory, CRT, is not only to understand our social situation but it intends to change it. Derrick Bell a Harvard Law Professor is considered to be the father of CRT. Thomas Sowell who is well known believed Bell incompetent to teach at Harvard and denounced Bell for demanding hiring based on race. CRT text books stress that teachers need a critical social justice perspective in order to understand issues related to race, gender and class in ways that will promote social justice and equality. President Trump in Sep. 2020 by Executive Order banned teaching race or sex stereotyping; however, Joe Biden on day one cancelled the order. **The Critical Theory movement developed by Marxist is now more influential in the Oval Office, Congress, Education and the Media than the genius and works of all of our Founders.**

Chapters 5 & 6 are good but they are skipped for brevity to get to **what we can and should do.**

Chapter 7. We Choose Liberty. Levin is often asked, "What are we going to do about recovering our country". Too often what is meant is, "what is someone else going to do to save America". **Each of us must become Citizen Activist.** The Marxist defames us and slanders our founders, our history and our founding documents. They hate our country and have contributed nothing to its' betterment. Without consent CRT has been integrated into schools and the National Education Association calling for BLM curricular materials in schools.
